HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Research, Inc. of Jacksonville, Florida from April 11 through April 13, 2017. A total of 625 registered Oregon voters were interviewed statewide by telephone.

Those interviewed on land-lines were selected by the random variation of the last four digits of telephone numbers. A cross-section of exchanges was utilized in order to ensure an accurate reflection of the state. Those interviewed on cell phones were selected from a list of working cell phone numbers. Quotas were assigned to reflect voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or regional grouping.

QUESTION: Wilderness areas are national public lands where you can hike, fish, or hunt – but logging, mining, and road building are prohibited. Roughly 4% of Oregon is Wilderness. California, Washington, and Idaho all have at least twice as much.

Do you support or oppose creating more protected Wilderness areas in Oregon?

	<u>SUPPORT</u>	<u>OPPOSE</u>	<u>UNDECIDED</u>

ASKED OF THOSE WHO "SUPPORT" MORE WILDERNESS (n=436)

QUESTION: While conservationists say Wilderness provides the strongest protections for clean water, wildlife habitat, and carbon storage, opponents say the cost of those protections is too high.

Which one of these arguments made by Wilderness opponents is most likely to change your mind and oppose Wilderness expansion?

- 1% – National forests should be transferred to the states or sold**
- 11% - Restrictions on logging and mining hurt rural economies and should be less strict**
- 5% – More logging is needed to minimize wildfires in Wilderness**
- 4% – Mountain biking should be allowed in Wilderness**
- 1% – Snowmobiles and ATVs should be allowed in Wilderness**
- 75% – None of them**
- 3% – Not Sure (NOT READ)**

ASKED OF THOSE WHO "OPPOSE" MORE WILDERNESS (n=90)

QUESTION: While conservationists say Wilderness provides the strongest protections for clean water, wildlife habitat, and carbon storage, opponents say the cost of those protections is too high.

Which one of these positions taken by Wilderness opponents is the argument you agree with the most?

- 28% - National forests should be transferred to the states or sold**
- 42% - Restrictions on logging and mining hurt rural economies and should be less strict**
- 13% – More logging is needed to minimize wildfires in Wilderness**
- 9% – Mountain biking should be allowed in Wilderness**
- 5% – Snowmobiles and ATVs should be allowed in Wilderness**
- 1% – None of them**
- 2% – Not Sure (NOT READ)**

QUESTION: Most forests in Oregon are managed by the federal government, state government, or private industry. In your opinion, which one of these entities does a better job at allowing logging activity while still balancing environmental and recreation values?

	<u>FED GOVT</u>	<u>STATE GOVT</u>	<u>PRIVATE</u>	<u>NOT SURE</u>
