HOW THE POLL WAS CONDUCTED

This poll was conducted by Mason-Dixon Polling & Research, Inc. of Jacksonville, Florida from May 26 through May 28, 2015. A total of 625 registered Oregon voters were interviewed statewide by telephone.

Those interviewed on land-lines were selected by the random variation of the last four digits of telephone numbers. A cross-section of exchanges was utilized in order to ensure an accurate reflection of the state. Those interviewed on cell phones were selected from a list of working cell phone numbers. Quotas were assigned to reflect voter registration by county.

The margin for error, according to standards customarily used by statisticians, is no more than ± 4 percentage points. This means that there is a 95 percent probability that the "true" figure would fall within that range if all voters were surveyed. The margin for error is higher for any subgroup, such as a gender or regional grouping.

QUESTION: There are currently 77 known gray wolves in the state of Oregon that are protected under the state’s endangered species act. Some are seeking to remove these protections and make it easier to kill a wolf. Do you support or oppose keeping current protections for Oregon’s gray wolves?
